DETAILED ACTION

Allowable Subject Matter

Claims 2,7,19-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 102

Claims 1,22 are rejected under 35 U.S.C. 102(b) as being anticipated by Wagner. This patent shows intermeshing rolls cutting or shredding containers fed thereto by vane type feeding means.

Claim Rejections - 35 USC § 103

Claims 3,5,6,8-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wagner. The limitations of these claims would have been obvious design choices only once the basic apparatus was known. Having the free vane end trail would have been obvious based on the product being treated. The exact dimension between adjacent disks would depend on the desired final product. The material which forms the cutters and hardening of the cutters would depend on the desired maintenance of the cutters. The setting of the bearings would have been a manufacturing choice only. The diameter of the disks would seem to depend on the product being treated and desired end results. Motor speed is clearly within the scope of one skilled in the art to ensure the apparatus performs its desired function. Using strippers that only partially surround the shafts and controlling the apparatus drive with a photo eye are well known in the art

and of no patentable merit. Applying disinfectant would have been obvious if the material being treated needed such treatment.

Response to Arguments

Applicant's arguments filed 9/17/08 concerning the above rejected claims have been fully considered but they are not persuasive. For claim 1, a gap between two adjacent members can be zero so that the claimed subject matter is broad enough to read on the prior art. The arguments for rejecting the dependent claims are set forth in the above rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
